

TRAINING OPPORTUNITIES

Webinar: Montana Safety Culture Act *Hosted by Liberty Northwest Insurance Loss Prevention*

Date: **July 21, 2009** *Time:* **2 – 3 pm MST** *Cost:* **No charge**

Safety excellence involves creating an injury-free work environment. At Liberty Northwest, our goal is to partner with Montana Safety Choices Group Program customers to focus on the exposures and loss sources in an effort to improve employee safety while helping to maximize productivity and reduce risk. We support the goal and vision of the Montana Safety Culture Act that was enacted by the 1993 Montana state legislature.

The Montana Safety Culture Act encourages workers and employers to come together to create and implement a safe and healthful workplace philosophy. It is the intent of the Act to raise workplace safety to a preeminent position in the minds of all Montana's workers and employers. Therefore, it is the responsibility and duty of employers to participate in the development and implementation of safety programs that will meet the specific needs of their workplace, thereby establishing a safety culture that will help create a safe work environment for all future generations of Montanans.

This one hour Webinar* is scheduled from 2 – 3 pm MST and is comprised of an online PowerPoint presentation that you can view while actively listening to the presenter on your phone. Participants are encouraged to take part in the interactive question period following the Webinar presentation. The webinar is open to all businesses within the state of Montana.

If you would like to join us for this free event, please contact the Liberty Northwest loss prevention consulting center at 866-761-2141 to register. You will be provided the login information for the Webinar at the time of registration.

***What's a Webinar?** It's a one-hour online training course that provides live, interactive learning you can enjoy in your home or office. All you'll need is a phone, Internet access and PowerPoint software. In this user-friendly format, presenters guide attendees through engaging presentations and videos, lead discussions, and answer questions.
