

BILL MOSELEY

CEO and Cofounder, GL Solutions

CEO Bill Moseley cofounded GL Solutions in 1997 to help government agencies function better. Bill led the company through decades of growth, personally serving as project manager for numerous installations. Recently, Bill moved the headquarters of GL Solutions to Kalispell. The relocation effort was driven by a need for workforce housing and a business-friendly regulatory environment. GL Solutions concluded that Kalispell held key cost-of-living advantages. Further, government policies were likely to keep housing costs and regulatory burdens in check for a long time to come. GL Solutions also was attracted by the Flathead Valley's recreational opportunities and small surrounding communities, like Columbia Falls, Bigfork, Lakeside and Evergreen. Bill, his wife, Renee, and their four children look forward to exploring all that the Flathead Valley has to offer.

THANK YOU TO OUR TREASURE STATE INVESTORS

for supporting all Montana Chamber and Chamber Foundation events
